UGBA 141 Discussion 3

Agenda: Process module wrap-up
  - Rework and flow-dependent processing
  - Inventory buildup tool

Feb 4, 2022
Hansheng Jiang

# Vibe Check Survey

- Waiting for your feedback!

Rework

- Certain percentages of flow units need **more than one** passes of a process

- TSA screening example from lecture

- Capacity computation with rework

Unit-dependent Processing

- Not all units are the same…

- Key idea: **redefine** flow unit as minute/hour of work

- Utilization computation

Inventory Buildup Tool

- Example of Cheeseboard Pizza
